#### **INDEPENDENT AUDITOR'S REPORT**

To the Board of Directors of Board of Examiners for Social Workers Reno, Nevada

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities and the major fund of the Board of Examiners for Social Workers (the "Board"), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the Board, as of June 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Board and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Board's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our

opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, and design and perform audit procedures responsive of those risks. Such procedures
  include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
  statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the board's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

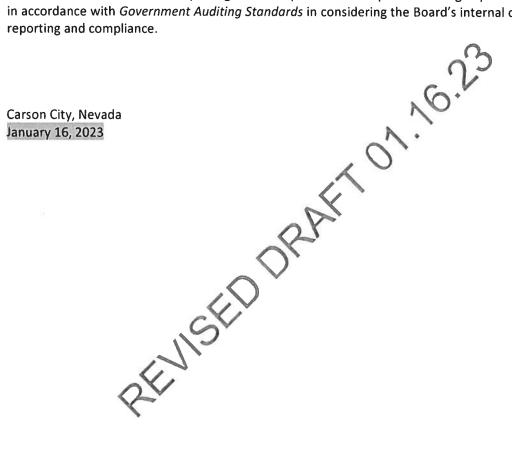

## **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4-7, the budgetary comparison schedule on page 27, the pension information on page 28-29, and other postemployment benefits information on page 30-31 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements. We do not

express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 16, 2023, on our consideration of the Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Board's' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board's internal control over financial reporting and reporting and compliance.

This section of the Board of Examiners for Social Workers (the "Board") annual financial report presents our discussion and analysis of the Board's financial performance during the fiscal year that ended June 30, 2022. Please read it in conjunction with the Board's financial statements, which immediately follow this section.

#### **Financial Highlights**

The Board's revenues were \$673,396, which was a \$63,581 increase from the prior year. The Board's current assets on June 30, 2022 were \$579,064, an increase of \$226,649 from the prior year.

During the past year, the Board has continued to make improvements to its online applications and online internship application modules in its licensee database. Despite ongoing COVID challenges for staffing coverage throughout the State of Nevada, the Board has been able to make internal processes easier for potential licensees and interns. During the next year, the Board plans to add a new module to bring 35 years of legacy programmatic information into its database. The intent is for the Board to continue to find ways to streamline and improve its processes for efficiency and effectiveness in response to public requests for historical information.

The pandemic has had other unexpected impacts that will continue to affect the productivity of regulatory agencies and other State of Nevada agencies e.g. the Board. Outote, there are significant shortages in all mental health professions across the State of Nevada. We have also learned that overall workforce challenges for the State of Nevada are predicted to continue. Understanding that workforce development is not inherently in the purview of regulatory boards, the Bhard is working together with other communities around licensure, policy, and regulation. As the challenges being faced are multifaceted, the Board is studying all avenues for deploying best strategies that will reduce social worker gaps and shortages with intent to create a safter and healthier Nevada.

#### Overview of Annual Financial Report

Management's Discussion and Analysis (MD&A) serves as an introduction to, and should be read in conjunction with, the basic audited financial statements and supplementary information. The MD&A represents the Board members' and management's examination and analysis of the Board's financial condition and performance Summary financial statement data, key financial and operational indicators used in the Board's strategic plan, budget, and other management tools were used for this analysis.

The Board uses the modified accrual basis of accounting for internal financial statement reporting. The financial statements have been prepared in accordance with generally accepted accounting principles as they apply to governmental units. The fund financial statements include a balance sheet, a statement of revenues, expenditures, and changes in fund balance, and notes to the financial statements.

The Statement of Net Position and Governmental Fund Balance Sheet present the financial position of the Board on both the modified accrual basis under the general fund and the full accrual basis as net position. This statement provides information on the Board's assets, deferred outflows, liabilities, and deferred inflows, with the difference reported as net position/fund balance. Over time, increases and decreases in net position/fund balance are one indicator of whether the financial position of the Board is improving or deteriorating.

The Statement of Net Position and Governmental Fund Balance Sheet provide information about the nature and amount of resources and obligations at year-end. The Statement of Activities and Governmental Fund Revenue, Expenditures and Changes in Fund Balance presents the results of the activities over the course of the fiscal year and information as to how the fund balance and net position changed during the year. The fund balance changes under the modified accrual method when revenue is received or the expenditures is made, while changes in net assets under the full accrual method are recorded as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. This statement also provides certain information about the Board's recovery of its costs.

The notes to financial statements provide required disclosures and other information that are essential to a full understanding of material data provided in the statements. The notes present information about the Board's accounting policies, significant account balances and activities, material risks, obligations, commitments, contingencies and subsequent events, if any.

The financial statements were prepared by the Board's staff from the detailed books and records of the Board. The financial statements were audited during the independent external audit process.

#### **Financial Analysis**

The basic financial statements, as well as the required supplementary information, serve as the key financial data for the Board members' and management's monitoring and planning.

#### **Statement of Net Position**

The Board's net position remains strong at year end with adequate liquid assets to fulfill its responsibilities. The Board members and management believe the current financial condition and staff capabilities are sufficient to meet anticipated operating expenses and operational objectives. During the year ended June 30, 2015, the Board implemented GASE e8 and 71, Accounting and Financial Reporting for Pensions and Pension Transitions for Contributions Wade Subsequent to the Measurement Date, respectively. In March 2016, the GASE issued Statement No. 82, Pension Issues – An Amendment of GASE Statements No. 67, No. 68, and No. 73, effective for periods beginning after June 15, 2016, or June 15, 2017 when an employer's pension liability is measured on a date other than the employer's most recent fiscal year-end. The objective of this statement is to address certain issues that have been raised with respect to GASE Statements No. 67, No. 68, and No. 73 regarding: 1) the presentation of payroll-related measures in required supplementary information; 2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes; and 3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. Management has implemented the statement during the year ended June 30, 2018.

During the year ended June 30, 2022, the Board implemented GASB 75, Accounting and Financial Reporting For Post-Employment Benefits other than Pensions. The objective of this statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This statement was effective for periods beginning after June 15, 2017. Management has implemented the statement during the year ended June 30, 2022.

The impact of the implementation of these standards to the current year is to include certain deferred inflows and outflows of resources and reflect a net pension liability for the PERS retirement program and a net OPEB liability for the Public Employees' Benefit Program as it relates to the Board. The financial impact resulted in the net position of the Board being a deficit of \$12,106 and \$253,944 at June 30, 2022 and 2021.

#### **Government-Wide Financial Analysis**

Net position may serve over time as a useful indicator or a government's financial position. In the case of the Board of Examiners for Social Workers, current assets exceeded current liabilities by \$501,545 as of June 30, 2022.

Net Position	0

The June 30, 2021 balances were restated for the implementation of GASB 87 and 75, see New Accounting Pronouncement in Note 1 and Error Correction and Prior Period Adjustment in Note 11 for additional information.

The following presents a summary of the Board's net position for the following fiscal years.

#### **Changes in Net Position**

The Board's total revenues for the fiscal year ended June 30, 2022 were \$683,242. The total cost of all programs and services were \$441,404. The following is a summary of the changes for the following years:

Changes in Net Position						
	June 30, 2022			June 30, 2021

		0	0			

The June 30, 2021 balances were restated for the implementation of GASB 87 and 75, see New Accounting Pronouncement in Note 1 and Error Correction and Prior Period Adjustment in Note 11 for additional information.

# Financial Analysis of Board of Examiners for Social Workers' Funds

As noted earlier, the Board of Examiners for Social Workers uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

## **General Fund Budgetary Highlights**

in many time black the otation

The Board's actual expenses were less than budgeted due to contract services and operating expenses. The budget is based on prior year's activity plus any anticipated changes. Significant changes in the Board's budget were due to unpredictable pandemic-related impacts. Please refer to these changes discussed above under Financial Highlights.

The Board prepares its budget prior to the start of each year. This budget was not subsequently revised during the year. A comparison of this budget with actual results is provided in the supplementary information section of this report.

## Capital Assets and Debt Administration

As of June 30, 2022, the Board has \$9,876 invested in capital assets, net of accumulated depreciation. Assets are recorded as expenses in the year they are purchased for governmental fund financial statements. In government-wide financial statements, these assets are reflected at their historical costs less accumulated depreciation. Additional information can be found in the footnotes to these financial statements.

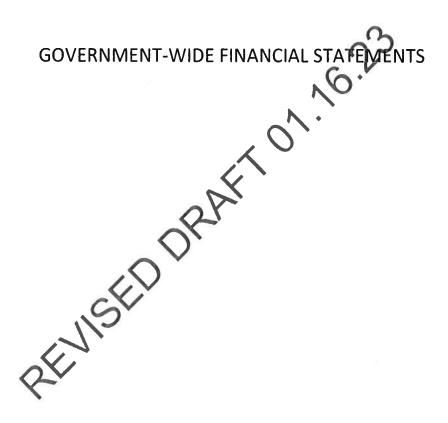

#### **Economic Factors and Next Year's Budget and Rates**

The Board uses no specific economic factors in preparing its budget for the next fiscal year. The Board's revenue is limited by maximum license fees specified in the Nevada Revised Statutes. For expenses, the Board typically assumes an increase of 5% to 10% over the prior year for non-contract items.

#### **Requests for Information**

This financial report is designed to provide the reader with a general overview of the Board's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Executive Director, Karen Oppenlander, at 4600 Kietzke Lane, Suite C121, Reno, Nevada 89502.

The Board of Examiners for Social Workers (the Board) is regulated by the Nevada Revised Statutes, which also specify the authorized activities of the Board. The Board is the licensing and regulatory agency for the practice of social work in the State of Nevada. The Board was created to examine and pass upon the qualifications of the applicants for certification, to certify qualified applicants, to revoke or suspend certificates, and to collect all fees and make disbursements pursuant to the Nevada Revised Statutes Chapter 641B.

The financial statements of the Board have been prepared in accordance with generally accepted accounting principles as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The following is a summary of the more significant accounting policies.

#### **Reporting Entity**

Effective July 1, 2001, Chapter 353 of the Nevada Revised Statutes (NRS) was amended to exempt certain professional and occupational boards from the state budget act and the provisions governing the administration of state funding. The provisions of Chapter 353 do not apply to boards created pursuant to chapters 623 to 625A, inclusive, 628, 630 to 640A inclusive, 641 to 644, inclusive, 654 and 656 of the NRS and the officers and employees thereof. Accordingly, the Board's budgeting and accounting practices and procedures have been removed from the oversign on the Department of Administration.

The Board's financial statements are not included in the financial statements of the State of Nevada since the State does not exercise financial or administrative control over the Board. This is in conformance with GASB codification Section 2100, Defining the Government Reporting Entity.

#### **Basis of Presentation**

The Board is defined as a single-program special-purpose entity under GASB Statement No. 14, paragraph 131 as amended by GASB Statement No. 39. This classification allows for the preparation of GASB 34 financial statements under an optional reporting method which combines the fund and government-wide statements into a single presentation. Under GASB 34 methodology, the government-wide statement of net position and statement of activities are presented independently from the respective fund balance sheet and statement of revenues, expenditures, and fund balance. A reconciliation of adjustments provided on the modified financial statements demonstrates the changes from the fund financial statements to the government-wide financial statements in order to assist the reader in evaluating these statements. The Board has utilized this optional method of presentation.

#### **Basis of Accounting**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

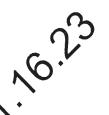

# **Basis of Accounting (continued)**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectable within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

#### Cash

Cash is maintained in one commercial bank in Reno, Nevada.

#### **Capital Assets**

Capital assets, which include office equipment, are reported in the net position column in the governmentwide financial statements. Capital assets are defined by the Board as assets with an initial, individual cost of \$1,000 and an estimated useful life of at least one year. Such assets are recorded at historical cost. Donated assets are recorded at acquisition value at the date or elemetion. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are expensed as incurred. Capital assets are depreciated using the straight-line method over the estimated useful lives of three to twenty years.

Under the modified accrual basis of accounting, acquisitions are considered expenditures in the year purchased.

#### **Compensated Absences**

Compensated absences are accounted for in accordance with GASB Statement 16, Accounting for Compensated Absences, which requires that a liability for compensated absences relating to services already rendered and that are not contingent on a specified event be accrued as an employee earns the rights to the benefits. Compensated absences relating to future services or that are contingent on a specified event will be accounted for in the period those services are rendered, or those events take place. The Board policy permits employees to accumulate earned but unused comp time, vacation and sick benefits subject to certain limitations on hours based on years of service. The sick time paid upon termination is limited to certain payout requirements and has hereby been reflected in the accompanying financial statements based upon these limitations. For the general fund, only the portion of the compensated absences paid from available resources are reflected as a liability, if applicable. The full liability is reflected in the government-wide financial statements.

#### Licensing and License Fees Received in Advance

Licensing revenue includes fees for applications, registrations and renewals, fines and penalties for late registration and disciplinary fines and charges for administrative duties performed by the Board. The Board receives license fees as specified by the Nevada Revised Statutes. These license fees cover annual periods beginning in the month of licensure.

Licensing fees for renewals received in advance of the licensure period are recorded as licensing fees received in advance.

#### **Deferred Outflows and Inflows of Resources**

In addition to assets, a separate section is reported for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expenditure) until then. The differences between expected and actual experience, changes in assumptions, changes in proportion, and differences between employer contributions and proportionate share of contributions as well as contributions made after the measurement period for pensions and other post-employment benefits qualify for reporting in this category.

In addition to liabilities, a separate section is reported for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. Differences between expected and actual experience and between projected and actual investment earnings on pension plan investments and other post-employment benefits qualify for reporting in this category.

## **Fund Equity and Net Position**

In the governmental fund financial statements, fund balances are classified as follows:

- Nonspendable represents amounts that are either not in a spendable form or are legally or contractually required to remain intact. The Board includes fund balances that have been prepaid for expenses and deposits on hand in this category.
- Restricted represents amounts which can be spent only for specific purposes because of state or federal laws, or externally imposed conditions. The Board has no restricted fund balances.
- Committed represents amounts which can be used only for specific purposes determined by the members of the governing Board's formal action through a resolution or action. The Board has no committed funds.
- Assigned represents amounts that are intended by the Board for specific purposes but do not require action by the governing Board. The Board has no assigned funds.
- Unassigned represents all amounts not included in spendable classifications.

The Board's policy is to first apply expenditures against restricted, committed, assigned fund balances and then unassigned balances. On an annual basis, assigned fund balances are determined based upon available resources.

#### Fund Equity and Net Position (continued)

In the government wide financial statements equity is classified as net position and displayed in the three following components, as applicable:

- Net invested in capital assets consists of capital assets, net of accumulated depreciation and any related debt.
- Restricted net position consists of net position with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- Unrestricted net position net position that is neither classified as "invested in capital assets" nor as "restricted."

The Board's policy is to first apply expenditures against restricted net position and then unrestricted balances.

#### Pensions

For purposes of measuring the net pension liability, deferred outflows of resources, deferred inflows of resources and pension expense, information about the induciary net position of the Public Employees' Retirement System of Nevada (PERS) and additions to deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are lecognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### Postemployment Benefits Other Than Pentions (OPEB)

For purposes of measuring the net OPEP liability, related deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Self Insurance Trust Fund, Public employees' Benefits Program (PEBP) and additions to/deductions from PEBP's fiduciary net position have been determined on the same basis as they are reported by PEBP. For this purpose, PEBP recognizes benefit payments when due and payable in accordance with the benefit terms. PEBP's cash and cash equivalents consist of short-term, highly liquid investments that are both (a) readily convertible to known amounts of cash and (b) so near to materiality that they present insignificant risk of changes in value due to changing interest rates.

#### **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### **New Accounting Pronouncements**

During the year ended June 30, 2022, the Board implemented the provisions of GASB Statement No. 87, Leases. The objective of this statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This statement increases the usefulness of the Board's financial statements by requiring recognition of certain lease assets and liabilities for leases that were previously classified as operating leases. Under this statement a lessee is required to recognize a lease liability and an intangible right-to-use asset. Accordingly, the Board implemented the standard for the earliest period presented resulting in an adjustment to beginning net position at July 1, 2021 of \$492.

In May 2020, the GASB issued Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs). The primary objective of this Statement is to provide guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This statement (1) defines a SBITA; (2) establishes that a SBITA results in a right to- use subscriptions asset – an intangible asset – and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA, GASB statement No. 96 will be effective for the Commission for fiscal year ending June 30, 2023. The Board is currently evaluating the full effect that the adoption of this standard will have on the financial statements.

#### Subsequent Events

#### Note 2 - Compliance with Neved Revised Statutes and Nevada Administrative Code

The Board conformed to all significant statutory constraints on its financial administration during the fiscal year during the fiscal yea

#### Note 3 - Deposits with Financial Institutions

The Board maintains its checking and certificate of deposit accounts in one commercial bank. Custodial credit risk is the risk that in the event of a bank failure, the Board's deposits may not be returned. The time certificates of deposit are held in the name of the Board. The accounts are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 in the aggregate per bank for the checking accounts.

The bank balances at June 30, 2022 that are not covered by the FDIC is \$339,221. By provisions of statutes, the Board is required to deposit all money in banks or savings and loan associations located in the State of Nevada.

#### Note 4 - Capital Assets

	June	e 30, 2021	Additions	Deletions	June	e 30, 2022

ote 5 – Leases	$\langle$	Rr				

The Board has custodial responsibility to the State of Nevada for furniture, fixtures and equipment acquired with resources of the Board. The capital asset activity during the year is as follows:

#### Not

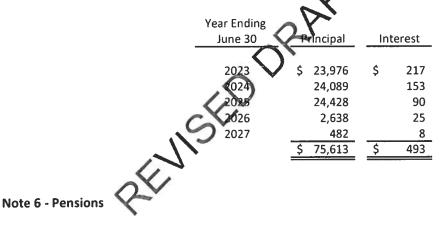

The Board currently leases office space in seno, Nevada. The existing lease commenced on August 1, 2020 and is set to expire on July 31, 2025. The monthly rental payment ranges from \$1,750 to \$1,825. In addition, the Board leases a multifunction printer and a postage machine. The existing lease of the multifunction printer commenced on July 1, 2020 and is set to expire on June 30, 2025. The existing lease of the postage machine commenced on February 1, 2022 and is set to expire on January 1, 2027.

At the time of initial measurement there was no interest rate specified in the original lease agreement. Accordingly, the Board has used an incremental borrowing rate equal to the five year treasury rate as reported by the US Treasury Department to discount the annual lease payments to recognize the intangible right to use this asset and the lease liability as of June 30, 2022.

#### Note 5 – Leases (continued)

			5		

Annual requirements to amortize long- term obligations and related interest are as follows:

Plan Description

PERS (System) administers a cost-sharing, multiple-employer, defined benefit public employees' retirement system which includes both Regular and Police/Fire members. The System was established by the Nevada Legislature in 1947, effective July 1, 1948. The System is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earnings capacities have been removed or substantially impaired by age or disability.

#### **Benefits** Provided

Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering the System on or after January 1, 2010 and for members entering the System on or after July 1, 2015. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for members are computed as 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this multiplier is 2.67% of average compensation. For members entering the System on or after January 1, 2010, there is a 2.5% service time factor and for regular members entering the System on or after July 1, 2015, there is a 2.25% multiplier. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Post-retirement increases are provided by authority of NRS 28657 – 286.579.

#### Vesting

Regular members entering the System prior to January 1, 2010 are eligible for retirement at age 65 with five years of service, at age 60 with 10 years of service or at any age with thirty years of service. Regular members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 62 with 10 years of service, or any age with thirty years of service. Regular members who entered the System on or after July 1, 2015 are eligible for retirement at age 65 with 5 years of service, or at age 62 with 20 years of service or at age 55 with 50 years of service or at any age with 33 1/3 years of service.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation, work Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

#### Contributions

The authority for establishing and amending the obligation to make contributions, and member contribution rates, is set by statute. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans. Contributions are shared equally by employer and employee. Employees can take a reduced salary and have contributions made by the employer (EPC) or can make contributions by a payroll deduction matched by the employer.

The System's basic funding policy provides for periodic contributions at a level of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due.

#### *Contributions (continued)*

The System receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 486.450.0

The actuary funding method used is the Entry Age Actuarial Cost Method. It is intended to meet the funding objective and result in relatively level long-term contributions requirements as a percentage of salary.

For the fiscal year ended June 30, 2022, the Statutory Employer/employee matching rate was 15.25% for Regular employees. The Employer-pay contribution (EPC) rate was 29.25%, for the 30, 2022 for Regular employees.

## Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

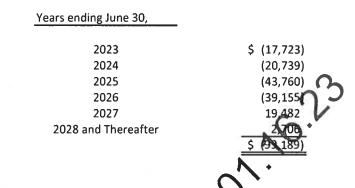

At June 30, 2022, the Board reported a liability of \$268,291 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Board's proportion of the net pension liability was based on total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their combined employer contributions relative to the total combined employer contributions for all employers for the period ended June 30, 2021. At June 30, 2021, the Board's proportion was 0.00294% percent, which was same as its proportion measured at June 30, 2020.

For the year ended June 30, 2022, the Board recognized pension expense of \$4,812. Amounts totaling \$32,225 resulting from Board contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in year ended June 30, 2022. For the year ended June 30, 2022, the Board contributed \$32,225 under the statutes requirements based on covered payroll of \$207,524 which equates to 15.5% overall to the plan. At tune 30, 2022, the Board reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

	 ed Outflows of esources	Deferred Inflows of Resources		
Differences between expected and actual experience	\$ 29,718	\$	1,888	
Changes of assumptions	89,077		-	
Net difference between projected and actual earnings				
on pension plan investments	<u>-</u>		218,916	
Changes in proportion and differences between				
employer contributions and proportionate share of contributions	58,602		55,782	
Contributions subsequent to the measurement date	 32,225		-	
	\$ 209,622	\$	276,586	

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Amounts reported as deferred outflows of resources and deferred inflows of resources, without regard to the contributions subsequent to the measurement date, related to pensions will be recognized in pension expense as follows:

The net difference between projected and actual investment earnings on pension plan investments will be recognized over five years, all the other above deferred outflow and deferred inflows will be recognized over the average expected remaining services lives, which was 0.14 years for the measurement period ending June 30, 2021.

Reconciliation of the net pension liability at 100, 2022 is as follows:

Beginning net pension liability	\$ 409,647
Pension expense	4,812
Employercontributions	(30,793)
Current year net deferred (inflows) and outflows	(115,375)
Ending net pension liability	\$ 268,291
$\sim$	

Actuarial Assumption

The System's net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.50%
Investment rate of return	7.25%
Productivity pay increase	0.50%
Projected salary increases	4.2% to 9.1%, depending on service
	Rates include inflation and productivity increases
Consumer price index	2.75%
Other assumptions	Same as those used in the June 30, 2021 funding actuarial valuation

#### Actuarial Assumptions (continued)

Mortality rates for all non-disabled members (Regular and Police/Fire) age 50 and over were based on the Headcount-Weighted RP-2014 Healthy Annuitant Table projected to 2020 with Scape MP- 2016, set forward one year for spouses and beneficiaries. For all non-disabled members under the age of 50, mortality rates were based on the Headcount-Weighted RP-2014 Employee Mortality Tables adjusted by the ration of the mortality rate for members at age 50 to the mortality rate at age 50 from the Employee mortality tables used for age 50 and over. The mortality rates for ages less than 50 are then projected to 2020 with Scale MP-2016. The mortality table used in the actuarial valuation to project mortality rates for all disabled members (Regular and Police/Fire) is the Headcount-Weighted RP-2014 Disabled Retiree Table, set forward four years.

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial valuation completed that same date. There were no changes in actuarial assumptions since the preceding valuation.

The discount rate used to measure the total pension liability was 7,25% as of June 30, 2021. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the pension plan's fiduciary net position at June 30, 2021, was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2021.

Investment Policy

ORI

The System's policies which determine the investment portfolio target asset allocation are established by the System. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System. The following was the System's adopted policy target asset allocation as of June 30, 2021:

Seet Class	Target Allocation	Long-Term Geometric Expected Real Rate of Return *
Domestic equity	42%	5.50%
International Equity	18%	5.50%
Domestic Fixed Income	28%	0.75%
Private markets	12%	6.65%

\*As of June 30, 2021, PERS' long-term inflation assumption was 2.5%.

#### Discount Rate and Pension Liability Discount Rate Sensitivity

The following presents the net pension liability of the PERS as of June 30, 2021, calculated using the discount rate of 7.25%, as well as what the PERS net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.25%) or 1 percentage-point higher (8.25%) than the current discount rate:

	1% Decrease (6.25%)		 count Rate (7.25%)		Increase 8.25%)
Net pension liability/ (asset)	\$	533,793	\$ 268,291	<u>\$</u>	48,938
Pension Plan Fiduciary Net Position			$\zeta$		

Additional information supporting the Schedule of Employer Allocations and the Schedule of Pension Amounts by Employer is located in the PERS Comprehensive Annual Financial Report (CAFR) available on the PERS website at www.nvpers.org under Quick Links – Publications.

#### Note 7 - Other Post-Employment Benefits (OPEB)

#### Plan Description

Employees of the Board are provided with QPEs through the Self Insurance Trust Fund, Public Employees' Benefits Program (PEBP) – a cost-sharing multiple employer defined benefit OPEB plan administered by the Public Employees' Benefits Program Board (PEBP Board) which was created in 1983 by the Nevada Legislature to administer group health, life and disability insurance for covered employees, both active and retired, of the State, and certain other participating public employers within the State of Nevada. PEBP does not provide for refunds of employee contributions. The Self Insurance Trust Fund issues a publicly available financial report that can be obtained at <a href="https://www.health.nv.us">https://www.health.nv.us</a>.

#### Benefits Provided

PEBP provides medical, dental, vision, mental health and substance abuse and also offers fully insured HMO products. Long-term disability and life insurance benefits are fully insured by outside carriers.

#### Contributions

Per NRS 287 contribution requirements of the participating entities and covered employees are established and may be amended by the PEBP board. The Boards' contractually required contribution for the year June 30, 2022, was \$5,049, actuarially determined as an amount that is expected to finance the costs of benefits earned by employees during the year. Employees are not required to contribute to the OPEB plan.

### Note 7 - Other Post-Employment Benefits (OPEB) (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2022, the Board reported a liability of \$193,420 for its proportional share of the net OPEB liability. The net OPEB liability was measured as of July 1, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The Board's proportion of the net OPEB liability was based on a projection of the Board's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating state agencies. Actuarially determined. At June 30, 2021 the Board's proportion was 0.0125%.

For the year ended June 30, 2022, the Board recognized OPEB expense of \$9,523. At June 30, 2022, the Board reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Sources.	Deferred Outhows of Resources	 ed Inflows sources
Differences between expected and actual experience	A	\$ 6,983
Changes of assumptions	10,794	838
Net difference between expected and actual	$\mathbf{\nabla}$	
earnings on OPEB plan investments	-	68
Implicit Subsidy		1,800
System contributions subsequent to the measurement dates	5,049	
R	\$ 15,843	\$ 9,689

Amounts Recognized in the deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in the OPEB expense as follows:

Year ending tune 30,	
2023	\$ 630
2024	1,346
2025	939
2026	(10)
2027	 -
	\$ 2,905

#### Actuarial Assumptions

The total OPEB liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation rate	2.50%
Investment rate of return	2.16%
Productivity pay increase	0.50%
Promotional and merit salary increase	Regular: 1.00% to 5.90%, 2.73% average
Healthcare cost trend rates	6.25% initial, 4.50% ultimate

#### Note 7 - Other Post-Employment Benefits (OPEB) (Continued)

#### Actuarial Assumptions (continued)

Healthy Mortality rates were based on the Public Retirement Plans General Mortality Table weighted by Headcount, projected by MP-2020 for civilians, and on the Public Retirement Plans Safety Mortality Table weighted by Headcount, projected by MP-2020 for officers. Disabled Mortality rates were based on the Public Retirement Plans General Disabled Mortality Table weighted by Headcount, projected by MP-2020 for civilians, and on the Public Retirement Plans General Disabled Mortality Table weighted by Headcount, projected by MP-2020 for civilians, and on the Public Retirement Plans Safety Disabled Mortality Table weighted by Headcount, projected by Headcount, projected by MP-2020 for civilians, and on the Public Retirement Plans Safety Disabled Mortality Table weighted by Headcount, projected by MP-2020 for officers.

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial valuation date of January 1, 2020, adjusted by using roll-forward procedures to determine the liability at the measurement date of June 30, 2021.

#### Discount Rate

The discount rate basis under GASB 75 is required to be consistent with a 20-year Municipal Bond Index. The Bond Buyer General Obligation 20-Bond Municipal Bond Index is used for the determination of the discount rate.

The discount rate as of June 30, 2021 was 2.16%. Additional detail regarding the discount rates as of June 30, 2021 is provided in the "Actuarial Assumptions and Methods" section of the report provided by the PEBP Board.

Sensitivity of the Board's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the Board's proportionate share of the net OPEB liability, as well as what the Board's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate:

				Current			
	1% Decrease (1.16%)			count Rate (2.16%)	1% Increase (3.16%)		
Net OPEB liability / (asset)	\$	212,786	\$	193,420	\$	172,219	

Sensitivity of the Board's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rates

The following presents the Board's proportionate share of the net OPEB liability, as well as what the Board's proportionate share of the net OPEB liability would be if it were calculated using health care cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current health care cost trend rates:

	Health Care Cost Trend Rates								
		Decrease 5.25%		end rate -6.25%	19	% Increase -7.25%			
Net OPEB liability / (asset)	\$	177,839	\$	193,420	\$	206,422			

#### Note 7 - Other Post-Employment Benefits (OPEB) (Continued)

#### OPEB Plan fiduciary Net Position

Detailed information about the OPEB plan's fiduciary net position is available in the separately issued PEBP financial report.

#### **Note 8 - Compensated Absences**

The compensated absences is defined as those benefits that would be liquidated with available expendable resources as a result of employees who have terminated employment with 45 days subsequent to year end. The current portion of the cost of compensated absences is recorded as payroll expenditure.

The additions and deletions to compensated ab	sence	es were as f	ollows:	3	)
	B	Balance	Increase	V E	Balance
	June	e 30, 2021	(Decrease)	June	e 30, 2022
Vacation Sick leave	\$	9,271 12,835 <b>(</b>	1,202 (12,835)	\$	10,473
Accrued compensated absences	\$	22,106	\$ (11,633)	\$	10,473
	5	X			

These amounts plus the additional retirement costs related to these amounts are reflected in the governmentwide financial statements as compensated absences, noncurrent under noncurrent liabilities.

## Note 9 - Litigation

The Board is subject to legal proceedings and claims, which have arisen in the ordinary course of its business and have not been finally adjudicated. These actions, when ultimately concluded and determined, in the opinion of the Board, will not have a material adverse effect on the financial position of the Board, and, accordingly, no provisions for losses have been recorded.

# Note 10 - Conversion to Government-Wide Financial statements

Adjustments on the face of the financial statements were made to the fund balance sheet and statement of revenue, expenditures, and changes in fund balance in order to reconcile the fund financial statements to the government-wide statements of net position and activities.

Statement of Net Position and Governmental Fund Balance Sheet Adjustments – Increase (decreases):

Capitalization of fixed assets of \$53,136 accumulated depreciation of (\$43,260) – \$9,876 Capitalization of right of use assets of \$119,300 accumulated depreciation of (\$44,693) - \$74,607 Inclusion of lease liabilities of (\$75,613) Pension activity including deferred outflows of \$209,622, net pension liability of (\$268,291) and deferred inflow of (\$276,586) - (\$335,255) OPEB activity including deferred outflows of \$15,843, net OPEB liability of (\$193,420) and deferred inflow of (\$9,689) – (\$187,266) Inclusion of compensated absences – (\$10,473)

#### Note 10 - Conversion to Government-Wide Financial statements (continued)

Elimination of fund balance – (\$512,018) Inclusion of net position - \$175,160

Statement of Activities and Governmental Fund Revenue, Expenditures, and Changes in Fund Balances Adjustments – Increases (decreases):

Increase (decrease) in operating expenditures/expenses: Decrease in net pension liability and related accounts - (\$27,415) Increase in net OPEB liability and related accounts - \$10,796 Decrease in salaries - (\$11,633) Increase in interest expense - \$270 Addition of depreciation expense - \$5,480 Addition of lease expense - \$23,398 Removal of capital outlay and services and supplies to capital assets - (\$134 Removal of rental payment to right of use assets - (\$23,154)

#### Note 11 – Error Correction and Prior period adjustment

The Board has not adopted GASB statement No. 75, According and Financial Reporting for Postemployment Benefits Other Than Pensions until this fiscal year. Accordingly, the Board has not recognized a liability for its proportionate share of the net post-employment benefits other than pension (OPEB) liability, OPEB expense, or reported deferred outflow of resources and deferred inflow of resources related to OPEB for its proportionate shares of collective OPEB expense until the beginning of this fiscal year. Beginning net position was restated to adopt GASB No. 75 to report the beginning net OPEB liability, deferred inflows of resources, and deferred outflows of resources.

# Note 12 - Risks and Uncertainties

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 10, 2020, declared it to be a pandemic. Actions taken around the world to be provide the spread of COVID-19 include restrictions on travel, quarantines in certain areas, and forced closeres for certain types of public places and businesses. The pandemic and actions taken to mitigate it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Association operates. It is unknown how long these conditions will last and what the complete financial effect will be to Board operations.

# **COMPLIANCE SECTION**

REVISED DRAFT 01.623

# Casey Neilon, Inc. Accountants and Advisors

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors of Board of Examiners for Social Workers Reno, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government* Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of the Board of Examiners for Social Workers (the "Board") as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements, and have issued our report thereon dated November 14, 2022.

#### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Board's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency* in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2021-001 and 2021-002 to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying findings and responses as item 2021-003 to be a significant deficiency. Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses.

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### The Board's Response to Findings

The Board's response to the findings in our audit are described in the accompanying schedule of findings and responses. The Board's response was not subjected to the audit procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Board's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and in considering the Board's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Carson City, Nevada November 14, 2022

#### STATUS OF PRIOR YEAR FINDINGS

#### 2021-001: Financial Reporting Material Weakness

- *Criteria:* Management is responsible for establishing and maintaining an effective system of internal control over financial reporting. One of the key components of an effective system of internal control over financial reporting is having the capability to prepare full disclosure financial statements in accordance with generally accepted accounting principles (GAAP).
- Condition: As auditors, we assisted in the preparation of the financial statements including posting government-wide journal entries. The Board does not have the experience to prepare full disclosure financial statements in accordance with generally accepted accounting principles.
- Cause: Procedures have not been implemented to ensure Board personnel possess the experience to prepare the Board's full disclosure financial statements in accordance with generally accepted accounting principles.
- *Effect:* Financial information prepared by the Board may not comply with generally accepted accounting principles.
- Recommendation: We recommend the Board implement procedures to provide training in the preparation of governmental full disclosure financial statements in accordance with generally accepted accounting principles.

#### Views of Responsible Officials: The Board of Exam

No chang

Is: The Board of Examiners for Social Workers agrees with this finding.

Current Year Status

# 2021-002: Material Adjustments Material Weakness

*Criteria:* Internal gement is responsible for establishing and maintaining an effective system of internal control over financial statement reporting. One of the components of an effective system of internal control over financial reporting is oversight over account reconciliations and using reliable, correct supporting evidence in calculations of balances.

Condition: We proposed material adjustments to capitalize capital assets, correct beginning and ending unearned revenue balances, and to correct the compensated absences liability. An overall review and oversight over these balances did not occur after all year-end adjustments were complete. The conditions indicate that errors in the year end close out process are not detected and corrected in the normal course of business.

### Cause: Procedures have not been put into place to review and approve these account balances.

### *Effect:* Data used by the Board to prepare financial information may not be reliable.

Recommendation:	We recommend the Board implement procedures to provide training in management review and approval over account balances and to retain such supporting documents.
Views of Responsib Officials:	<i>le</i> The Board of Examiners for Social Workers agrees with this finding.
Current Year Status	No change
2021-003:	Review of the Actuary Reports – Significant Deficiency
Criteria:	Management is responsible for establishing and maintaining an effective system of internal control over financial reporting. Properly reviewing the actuary report on the pension (PERS) is a key component to effective internal control over financial reporting.
Condition:	During our testing over PERS, we noted the actuary reports were not adequately reviewed by Management to ensure consistency with current information and reasonableness over the assumptions used by the actuaries.
Cause:	The Board did not have adequate controls to provide for the review of the PERS account balances.
Effect:	PERS obligation balances at year and may be misstated and contributions paid into these plans are not appropriate.
Recommendation:	We recommend the Board implement internal controls to provide for the review of the actuarial reports and retain evidence of such a review.
Views of Responsib	
Officials:	The Board of Examiners for Social Workers agrees with this finding.
Current Year Status	Nochenge
